

## What I liked best about the experience of learning online:

One on one

less anxiety among peers

I hate it

My school day is shorter and my mom will help me.

i prefer to see everyone at school instead on online because it make me smile when i see everyone and chatted as much!

I don't have a favorite. But I like seeing people on video ( face time)

I don't know but not always wanting to see people online.

I like it is more flexible.

Time to do my work

It is more self paced and the work is easier.

Not being exhausted every day from the noisy chaos in school.

That I get to see my dogs while I'm working.

I can go at my pace

I do not know if I like learning online. I guess it okay or alright?

I can work on my work whenever I want to.

Sleeping in

I like Google Classroom

Seeing my friends

That we have time to do are work

you ken tak raks wen evern youwont.

You can mute and unmute, and the funny part is I can't

I can communicate with others in a cool way. I'm learning different techniques of meeting online.

Seeing my teacher and my friends

Fewer hours of school

It's Easier - work at your own pace. Sleep late.

it was super fun because I got to see my family.

Seeing classmates

Nothing

Maybe that I can be more comfy while doing homework

Is that I can set the learning at my own speed.

Sessions are always longer because we allow extra time in case we have technology issues or if there is a lapse in time for the message to get through. I feel like we have more time to go at a slower pace and we spend more time on my goals.

I HATE IT

What I liked best about the experience of learning online is that work could be put to text.

more time to do other activitys

Seeing people - my classmates

I never met with teachers just to talk about an up coming IEP meeting for 20 min with my mom and the specie ed teacher

I liked the chat section of Google Meet.

There are less distractions than at school with classrooms all around you. And most of the time everyone is

I can watch videos multiply times. I can go fast or slower on assignment. I can more time on my assignment.

Seeing each other's homes

is that it is very helpful to me and seeing my teacher if i need help for anything

being able to see my classmates and teachers, have shorter class time and more time to do assignments

I like that I can still work with my teacher since we can't be in school.

Only one person could talk at a time

None of it.

i like math.

It's easier than school.

I could stay home.

more organized, I do not have to rush between classes - 8 minutes

I like how the audio and visual on Google Meets are pretty good.

Learning more time managements, responsibility, prioritizing, and independence.

Getting to Sleep in

Staying in bed

The thing I liked best about learning online was my ability to control it better. I could control the volume level either through external speakers or using my streamer with my hearing aid. The amount of background noise was less because students shared information in chat a lot of the time, which was easier than students sharing verbally in class because if you missed something you could go back and re-read through the chat. I don't like to speak in regular class but I share a lot more during remote learning because I feel more comfortable typing in the chat with my classmates. If I need to speak to my teachers because I didn't understand something then I can email them to ask and no one in my class has to know so I feel more comfortable asking for help online. It was easier to hear my teachers consistently online because there is no issue with distance or them walking around the classroom. I like not having to bring so many things to class. I love how my teacher of the deaf has magical I get to stay at home and sleep in.

I had more time to work on assignments and met with my teachers one-on-one.

I like that I can sleep in. The school day is shorter and not as long as at school. I have more time to listen to music and read.

I liked learning sign language and see meet Michael about ADA

Getting to do things on my own time and sleeping in

You have the whole day to finish something instead of just the class period.

I'm not really sure, it just feels like i'm homeschooled pretty much.

It was a lot easier for me and much more fun.

My mom has animal science put in to my schedule. There aren't as many noises and distractions

I can go at my own pace.

Skip

I get to sleep in and do homework when I want to!

It's great to see how we can still be learning just like in we do in school. The best I like is just having a consistent learning experience with my teachers.

I like how I can go back and rewatch the videos that my teachers give me and I like how I'm not too distracted with all the noises I had at school I also kinda like how I can set google meets with my teachers so they can help I like the best about learning online is doing my work on my own time and not being rushed.

its quicker

I get to see my family at home.

You get more time with your assignments

I don't have to pressured to get work done in a class period. Own resources at home are helpful. I can take my I can look up the answer if I am having a hard time.

community circle

nothing

The comfort of my house

I could understand more online and don't have to ask a lot of questions.  
The new learning skills and activities I've learned and the experience of something so odd.  
More flexibility to get things done. Timelines were not as strict.  
I don't really like it. I'd rather be at school.  
i try my best  
I liked seeing the teachers and classmates.  
I liked learning more in one day  
everyone shuts their mics off.  
I like how it can be easy sometimes. You can eat whatever you want for lunch instead of school lunch.  
Flexible schedule as to when I did my work  
I can do my homework myself and do more than one  
Seeing my friends and teachers  
group social times  
Nothing  
None of it.  
I can mute and turn off my camera so no one has to see me.  
Is that I can rewind tapes so I can understand more of what the teacher is saying  
I got my work done faster.  
doing homework in goggle, lots of videos  
Doing the work at my own pace and during my own time  
I can turn the sound louder.  
We, the staff, were able to see the students and communicate with via Google Zoom Meeting. At times, it was very productive. We were able to focus on some things, but other times, we were not able to focus on the  
Being able to do advanced work at my own level. This is better than my normal class.  
There is no time limit  
I feel freer, we don't have to do school for 8 hours  
Breaks between classwork.  
I went at my own pace.  
I was able to use speakers to help me hear what others were saying  
It was okay at first but I started getting tired of it. But with my DHH teacher it was awesome!  
There wasn't as much work.  
Nothing  
don't have any thing  
That I didn't have to see the people I don't get along with  
I don't know  
I have a week to do everything.  
I get to sleep in more and am able to focus on things like AP testing- also I don't have to worry about my grades at all due to my school's current system.  
I can work on my assignments in any order.  
it was different  
I liked the individual personal part. the teacher always asked what I was doing and how I was. More casual.  
Lessons weren't hard  
Flexibility of times for things. Liked being at home. Less homework.  
To have conversations and being able to share screens. I can see my teachers faces.  
i like to learn ASL with my teachers.  
Zoom  
I was glad to at least my teachers face to face, instead of only doing assignments.

I was able to get my schoolwork out of the way early in the day then having the rest of the day to myself.

Easier to cheat/find answers.

That you get less work. The work is a little easier and you can start anytime.

I liked the freedom of learning online.

you can do your work when ever you want

I have less homework.

There has been more flexibility about when I can complete assignments. If I am not feeling well one day, I can just work the next day a bit more and it does not count as an absence from school.

I get more time with my parents and my loves ones.

Working one on one with my teacher of the deaf and hard of hearing. It was cool to have online sign class and connect with my friends who wanted to learn sign language too. It helped school not to be so boring because I didn't always get to see my other teachers. I liked having the one on one time.

I was able to work on my assignments in any order I chose.

Being able to meet with her and friends from other sites at the same time

We have our own schedule, somewhat less stress, and less anxiety. we don't have to worry about some things.

It was very self-paced.

IDK

Having zoom sessions

It is easier to communicate with my teachers and peers.

I can do assignments all at once.

nothing, i couldn't communicate with anybody

Seeing each other and communicate through that and the teacher is still teaching in the crisis.

I like using my head phones.

Learning about the ear online.

How it is easier to submit assignments online than on the hand.

google classroom. teachers found videos with captioning

I can see your friends when they are online.

more quiet

Nothing that I liked about it.

I like best about learning online is that I get wake up later than 7 in the morning, and get to play with my brothers and dog when I'm done instead waiting til after the school hours end.

Pretty good.

I can see my teachers, interpreter, and my friends, and continue to learn.

That the teachers like teach me stuff when I don't understand. That I used closed captioning to know what my teachers and classmates are saying. Sharing their screen to make me understand what they are talking about.

i really like it

It was fun to see some of my friends and do some work.

I could stay comfortable in my home while doing school at the same time

I liked that we could go at our own pace, we didn't have to wait for other kids to catch up.

I do not like online school I like going school

I like the quiet classes - kids were more quiet than usual.

sleeping, working with dogs and anytime

that it was different.

nothing

cannot concentrate and work as well at home.

I work better and understand more in class in person.

That we could see each others faces online, because of Corona virus we cant see face to face.

I didn't have to get to early  
I can relax in bed while i do my work  
working at more of my own pace  
No kids talking in the background; no time periods to start and finish school.  
I can spend more time on what teachers post (like homework).  
I like getting homework done early and turn in  
Research more about this topic from biology and doing project on computer science.  
We had more time to work on assignments and teachers are more flexible. We could chose when we wanted to work on assignments any time if the day instead if sitting in the class at this time.  
I like staying home.  
I can turn my teacher volume up loud.  
Nothing  
meeting someone to learn something new  
More flexible schedule  
Feel like I'm at school but in the comfort of my home.  
I like that you get more time than you usually would in a classroom. Cool to email teachers and have personal calls with him.  
Teachers were more willing to repeat what students said than when in class. Chat is also great!  
i get to stay home and zoom calls  
Grades are better  
Seeing my friends  
I got to be more quiet and more able to work.  
I liked how we got to test out our assignments and tests and meetings virtually.  
Less hours than in school  
I could come and go easier from my seat. Classes were recorded-I could relisten.  
Week is written out. Don't have to worry about what's going to be in class or if I need materials.  
I liked how I do work online instead of doing it on paper. It's also cool that I get to do meetings with my class and get to see my old friends again!  
learning more things  
There is less background noise at home. I liked how assignments are posted on Google Classroom so I know what has to be done. I liked meeting online with other students with hearing loss. During the regular school year, I am alone in my school. No one else has hearing loss.  
I can work at my own pace.  
Schedule flexibility  
I could see the videos better than in class. I liked the schedule and being able to sleep in.  
the games  
i dont have to go places  
You can schedule your own school work.  
I have caption on so I could understand my teachers  
Most documents I use are just typed, they aren't videos and so I can understand them better.  
I learned that I'd rather be in the classroom because it's harder learning new things without the help of my  
I hated all of it.  
It was a different experience working virtually, and I learned a lot more about technology and GoogleMeet.  
I get to stay home.  
Nothing.  
The fact that there are recordings and I can watch for anything I might have missed.  
Saw my TOD more

That you can be comfortable in your own home instead of being in uncomfortable seats

Getting up when ever I want

I could see the teacher's face.

Easier to ask questions with email. Online learning is easier because doing the work didn't take much time for

I could work at my own pace. I could replay anything I verbally missed.

ability to experience Zoom meetings

Work took less time

I can feel that iam still learning and that i can still email my teacher if i kneed help with somethig.

Being able to take more time.

I can work at my own pace

Nothing

I could stay in bed and more time to do school work.

Nothing.

it kept me in touch with classmate and TDHH

got to see his classmates every Friday through Google meets.

being able to be in my own home in a quiet place to work.

one-on-one time to practice IXL

More flexible

You're able to share your screen with the teacher and they are able to help you better.

being home

that you can leave when you finish everything

Being able to work ahead.

I'm already a cyber school student. I was before the pandemic. I transferred in at the start of my 9th grade year (I'm now at the end of my 9th grade year.) I do much better with the online format than in person. In person is harder for me to understand, especially since I can't play it back. (Plus people are better about accommodations at this school than my home school.)

I was still able to learn while under quarantine.

I liked being on the computer for my assignments.

I got to work at my own pace and could get all of my work done and then have days off.

don't have to get up at 7:30 am in the morning to get to school

I finish earlier.

The best thing about learning online is that i get to take my time to submit assignments in.

More time to learn how I would like to

math, sciene, english.

nothing

Sleeping in .

Missed school

I was able to complete my work faster than I would in school.

I didn't have to wake up early

I did t get distracted as much

Owen is able to hear better at home because there's less background noise happening.

it is useful in a way if you're sick or on vacation

I liked the ability to talk to my friends and my teacher, and still social distancing.

I like being in the comfort of my own home. I like being able to finish the assignments that a teacher has given me in one day.

work and classes are more spread out (week's worth of assignments given on Mon and due Sunday).

Solving problems with the Teacher of the Deaf/Hard of Hearing.

Get to wake up at whatever time I want and have a lot of time to complete assignments.

I like online better because there is not a lot of background noise when everyone is on mute.

When I'm getting extra help when is needed.

Moving your schedule around, based on your day.

I like to do my work on a computer rather than writing everything down.

programs I use, I really like, especially math, I like my short meetings with my class for fun, I like to do the work when I want to do it instead of when the teachers tell me.

flexibility with work times and being able to work on different things at different times

It was the same as usual, but it was a new experience which I liked about learning online, it's better then going to school.

I am able to complete the work whenever I want to.

Idk

its okay

My friends and classmates have google hangouts so we ask each other questions and provide help and answers

Nothing

is that teacher help you with your work

I don't have to wake up so early. You don't have to do your work right away.

i still got to learn and talk to my teachers and friends

Having less schoolwork

Is you can hear a little bit better and you can sit home.

I don't have to be around people as much as I have more time to do assignments.
